

# **Mridul Roy**

# **Web & Software Developer**

## **EXPERIENCE**

# Creative IT Institute, Bangladesh — Intern

June 2020 - August 2020

• Implemented a custom fuzzy search algorithm, MVC model, RESTful API with MongoDB support for a resume selection software service.

#### **PROJECTS**

# Ecommerce Based web app — (php , laravel)

- Ability to manage orders, including order tracking, payment processing and order fulfillment.
- Ability to manage user accounts, including registration, login, authentication and authorization.
- Implemented inventory levels, receive notifications when inventory are low.
- Ability to optimize the website for search engines, including blog posts, pages.

# Simple Portfolio web app - (php, laravel)

- Client Software: Implemented a background software which showcase the work
  of an individual or a company. It is a collection of testimonials and other
  content that demonstrates the skills, expertise.
- Web App: Implemented an endpoint for the Client Software to consume.

# Real time Chat Application— (ReactJs, NodeJs, ExpressJs, Socket.io)

- Frontend: Built with React.js for an interactive and user-friendly interface.
- Backend: Leverages Node.js and Express.js to handle user interactions and serverside logic.
- Real-time communication: Likely utilizes a library like Socket.io to enable realtime messaging between users.

#### MelodyStream—(HTML, CSS, Javascript, ReactJs, ReactHook)

- Frontend: Built with React.js for an interactive and user-friendly interface.
- **React Hook Utilisation:** Used 'useState' for managing state variables like current track, playback status, volume, and playlists.
- Integration and Deployment: Integrated with music APIs for fetching and streaming tracks.

#### **EDUCATION**

# United International University, Dhaka — BSC in CSE

Credit Completed: 65/141

Major Courses: Discrete
Mathematics, Algorithm, Data
Structure, Database System, Data
mining & Machine Learning,
Software Engineering.

#### **Activities:**

 Competitive Programming member, UIU Computer Club.

#### **SKILLS**

- Programming Languages: C,
   C++, Python
- Database Management:MySQL, MongoDB
- Operating System: Linux.
- Computer Vision:,
   Tensorflow
- Cyber Security:
   Vulnerability assessment,
   penetration testing,
   Security audits.
- Frontend:ReatJs
- Backend:NodeJs,ExpressJs
- Mobile App Development: Flutter
- Frame Work: Django, Laravel
- Static Site Generator: NextJs

#### **PROBLEM SOLVING PROFILES**

 <u>Codeforces:</u> Max Rating(1749)

#### **CERTIFICATIONS**

- Professional Web
   Development from Creative
   IT Institute.
- Full Stack Web Development with MERN from OSTAD.
